Click on each to learn more about the project.

- An online Seniors Helping Seniors Toolkit containing an 8-week seniors' exercise routine, a senior friendly stretch routine, a peer leader volunteer training guide, and online resources for use in any Seniors Activity Centre.
- Online Learning Circle Toolkit for facilitators, site administrators, management and frontline staff of long-term care facilities that supports clinical practice changes and effective workplace learning for direct care providers.
- Toolkit that outlines key strategies on how to include frontline staff members in quality improvement project identification and implementation.
- Guidelines on how to develop daily care team huddles in long-term care and engage health care aides in the huddle process.
- The Home Living Case Manager Decision Tree outlines the basic decision-making process to be used when referring clients to a Seniors Outreach/Support Worker.
- Quick Reference for Home Living Case Managers and Seniors Outreach/Support Workers that describes roles, services provided and contact information to improve efficiency and uptake of their services.
- Client Information Sheet for seniors that explains the roles of the Home Living Case Manager and Seniors Outreach/Support Worker and specifies when each should be contacted.
- A local Camrose-based fall prevention program based on client need that includes a Fall Risk Management Pathway to determine fall risk and subsequent need for referral.
- Online video and decision-making guide to assist healthcare providers when considering transfer of long-term care residents to the emergency department.
- 12 online tutorials with accompanying workbooks and handouts that provide basic skill-based training in frequently encountered orthopaedic conditions in long-term care; suitable for a range of front line staff including RNs, LPNs and HCAs.
